Description	Electro-acoustic six-string guitar with a distinctive look and sound. This has been achieved by incorporating innovative design, construction and control principles that push out existing aesthetic, ergonomic and functional boundaries.
Body	Brazilian mahogany or with Canadian maple internal bracing.
Neck	Brazilian mahogany or Canadian maple.
Fretboard	Indian rosewood or Rocklite® (a high-tech, eco-friendly processed-wood equivalent of similar appearance to rosewood).
Pick-ups	Bareknuckle single-coil at neck, humbucker at bridge position and under-bridge piezo.
Electronics	Magnetic pick-up controls: volume, tone and 3-position switch. Piezo pick-up controls: volume and tone.
Hardware	Custom bridge with individual saddles adjustable for height and intonation (10.6mm string spacing); height-adjustable nut; Hipshot Grip-Lock™ open tuning machines.
Strings	Accepts the full range of popular guitar strings.
Weight	2.6kg
Dimensions	Length (including strap lugs) – 992mm; width – 377mm; height/depth of body – 80mm; Total height including bridge and string cover – 97mm
RRP	£2,795.00 ex-works Bristol, UK
